

## TPEAC US 12 Field Trip

Today's field trip will take us along the US 12 corridor (projects 1-8) from Walla Walla to the junction of US 12 and SR 124 at the Snake River. The trip starts with projects that are in the planning and early environmental development stage, where we'll discuss the status of the design and environmental work, as well as the US 12 Phase 7 & 8 (TPEAC Pilot) watershed mitigation opportunities. As the review continues, we will enter an active construction zone and stop at the US 12 - Two Rivers Wetland Mitigation Site. This completed mitigation project demonstrates an innovative multi-agency partnership providing mitigation for the project phases 1 through 3. On our return to Walla Walla, we'll give an update on some of the other exciting projects in the South Central Region, including the SR 24, I-82 to Keys Road (TPEAC Pilot Project). Depending on time, we may stop at the site of the Frenchtown Monument, to share with you the approach we're using with our partners to manage risks related to potential cultural resources.

- 1:00 Board the Bus/Departure at Marcus Whitman, Walla Walla**  
**Introductions and announcements**  
**Overview & context of tour..... Barb/Jason Smith**
- 1:15 Begin Tour of US 12 Starting at Pine St., Walla Walla**  
**Description of Phase 6 engineering ..... Kerry Grant**  
**Overview, Phase 6 environmental issues .....Larry Mattson**
- 1:30 Frenchtown Monument Wayside**  
**Discuss SCR approaches to risk minimization.....Larry Mattson**
- Drive through Lowden, Touchet**  
**Discussion of proposed alignment ..... Kerry Grant**  
**Discuss of Lower Dry Cr., Touchet R. channel migration maps .....Larry Mattson**
- 1:50 Phase 8 Potential Watershed Mitigation Pilot Project**  
**Discuss Pierce RV property .....Larry Mattson**  
**TPEAC pilot program potential watershed mitigation parcel**
- 2:15 Pass through Wallula Junction**  
**Discuss partnerships and mitigation on first phases of US 12 ..... Jason Smith**  
**Continue traveling north thru Phases 3, 1, and 2**
- 3:00 TURN AROUND AT SR 124**  
***15-minute bathroom break opportunity at Hood Park***
- 3:20 Two Rivers Mitigation Site ..... Jason Smith & John Stimberis**  
**View wetland, discuss partnerships**
- 4:00 Depart Two Rivers Site**  
**Discuss SCR partnerships:.....Don Whitehouse & Jason Smith**  
**Discuss I-90.....Larry Mattson**
- 4:45 Arrive Marcus Whitman**
